To Whom It May Concern,

Reference for Abhishek Choudhary

I am pleased to provide this reference for Abhishek Choudhary, who is currently completing a summer internship with Aarushi Security Infra as a Financial Planning and Analysis Intern, having joined us in June 2026.

During his internship, Abhishek has supported work relating to financial planning, budgeting, forecasting and the analysis of business performance. He approaches financial information carefully and shows a genuine interest in understanding the reasons behind changes in costs, revenue and overall business performance rather than simply reporting the numbers.

Abhishek has shown himself to be responsible, organised and willing to learn. He asks relevant questions, takes feedback positively and is able to work independently when required. His Business Management studies, combined with his interest in finance and analytics, have helped him approach tasks from both a financial and wider commercial perspective.

Throughout his time with us, he has maintained a professional attitude and has shown a clear desire to develop his practical financial skills alongside his university studies. I believe this combination of academic knowledge, analytical thinking and practical experience will serve him well as he progresses into his graduate career.

I am happy to recommend Abhishek for financial analysis, FP&A, business analysis, consulting and other graduate opportunities, and I wish him every success in his future career.

Yours faithfully,
Arvind Kumar Jha
Finance Head
Aarushi Security Infra
